

# Pirooz Kianersi

## AI Developer

### Profile

Contributing to innovative projects that have the potential to change how we use technology in our everyday lives. I'm trained as an AI Developer, with Python as my main language, and I've specialized in applied AI and development.

Besides working in tech, I bring over 20 years of experience from both media and the arts – a background that's given me a unique blend of creativity, technical skill, and business thinking.
